R E P O R T
OF THE MEDICAL OFFICER OF HEALTH FOR THE URBAN DISTRICT OF BRIXHAM
FOR 1954

Mr. Chairman, Lady & Gentlemen,

I have the honour to present my Annual Report for the year 1954, in accordance with the instructions of the Minister of Health.

During the year the health of the District remained satisfactory. The number of cases of notifiable infectious disease being only 6. These were 3 cases of measles, 2 of scarlet fever, and 1 of whooping cough. In addition, there were 12 cases of pulmonary tuberculosis. The figures for 1953 were 27 cases of notifiable infectious disease, and 11 of tuberculosis.

There has again been a fall in the number of births in Brixham, from 113 in 1953 to 99 in 1954. This gives a crude birth rate of 11.14 per 1,000 population, which compares with 12.83 per 1,000 the previous year, and with a birth rate of 15.2 for England and Wales. When allowance is made for the large number of elderly people who live in Brixham, the figure of 12.48 births per thousand population is arrived at.

There was also a reduction in the number of deaths occurring in Brixham, there being 133 in 1953, and 129 in 1954. This gives a death rate of 14.51 per thousand population, and when corrected according to age and sex of the population 10.59. The rate for the previous year was 15.10 and 11.47 respectively, and the rate for England and Wales as a whole is 11.3

When considering the vital statistics of Brixham it is as well to keep in mind that only a small population is affected, and that consequently there occur what appear to be quite marked fluctuations in the various totals and rates. These differences and fluctuations should have no undue importance attached to them.

The causes of death are given in the accompanying table.

In conclusion I should like to record my thanks to the members of the Council, and in particular the Chairman and members of the Roads and Sanitary Committee, for their encouragement and support. I should also like to record my grateful appreciation of the work and assistance I have received from your Sanitary Inspector, Mr. Godfrey.

I have the honour to be,
Your obedient Servant,

D. K. MACTAGGART,

Medical Officer of Health
